

I am writing in regards to the changes that will cause me to lose my FM station KLOVE. I travel for my job and the loss will mean that I can not have continuity in my listening as I travel. K-Love keeps me informed of important issues and I believe in what they encourage.

The loss will affect many not only me and it is a comfort to find good music without the commercials and talk that I find so offensive on the other stations in my area. It is safe for children and I do not need to fear that they will repeat something inappropriate that they have heard on the radio at an inappropriate moment. Thank you for your time and know that the loss of K-Love will affect many people by giving preference to those who are not LPFM.
